SUMMARY

Dynamic and results-driven intern at Iteron, skilled in web development with React.js and Node.js. Successfully created a real-time chatbot application, enhancing user interaction and file handling. Proven problem solver and quick learner, adept at collaborating within teams to deliver efficient solutions

SKILLS

- Front-end and back-end development
- Problem solving
- Real-time communication
- Teamwork and collaboration
- Time management
- Quick learner

WORK EXPERIENCE

Intern, Iteron technology may 2024 - July 2024

- Tech Stack: React.js, Node.js, Express, REST API, Multer, JavaScript, HTML/CSS
- Developed a end to end chatbot application using React.js for the frontend and Express for the backend.
- Implemented real-time chat interface with user-friendly UI using React components.
- Integrated file upload functionality allowing users to send images and documents through the chatbot.
- Utilized Multer middleware for handling multipart/form-data on the server side.
- Ensured secure file handling and proper storage with validation for file types and size limits.
- Structured RESTful APIs to handle chat messages and file transfers efficiently.
